

ECOMM Recognized by Mitel as Platinum Elite Dealer

Pennsylvania-based Reseller Honored for Over \$2.5 Million in 2007 Sales

LANCASTER, PA...March 24, 2008 — ECOMM, a distributor of advanced Voice over Internet Protocol (VoIP) communications solutions for businesses, has been named a 'Platinum Elite Dealer' for 2007 by Mitel, a provider of unified communications solutions and applications for organizations of all sizes. The designation was bestowed at Mitel's recent 2008 Business Partner Forum in Orlando, Florida. Mitel partners achieving 'Platinum Elite' status generate annual wholesale/net purchases between \$2.5 and \$3.5 million.

"We are thrilled to have reached this milestone as a Mitel authorized partner," said Gary Ritacco, chief executive officer for ECOMM. "We're very proud that, by Mitel's own criteria, ECOMM is among its top dealers worldwide. We look forward to continuing with this innovative partner as we work to grow our business in 2008."

While much of ECOMM's customer base consists of small-to-medium businesses, call centers and international multi-office environments, Ritacco added that Mitel's recent merger with Inter-Tel adds an element of consistency in IP offerings, from small businesses scalable to large companies. Says Ritacco, "We plan to leverage the synergies of Mitel to build upon our historic success in the SMB space and expand into larger markets."

"Through the expansion of our partner programs, Mitel will continue to offer strong resellers like ECOMM access to the comprehensive portfolio of Voice over IP, unified communications, collaboration and managed services solutions they need to maintain a competitive edge in the marketplace," said Rick Dell, president of sales for Mitel US. "As demonstrated by ECOMM's notable achievements, our channel partners are among the most dedicated and committed in the industry, and we will continue to bolster their success with our advanced solutions and comprehensive range of support programs."

About ECOMM

Since 1984, ECOMM has provided a diverse suite of products and services to thousands of customers, including business enterprises, government agencies and non-profit organizations.
