Gary Ritacco, President & CEO of eComm, Presents His Views on the State of the Telecommunications Industry

Leading Providers in the U.S and Canada Listen to Mr. Ritacco at Technology Assurance Group's 2007 National Convention

PHILADELPHIA/MALVERN, PA— March 27, 2007 — eComm, a leader in business communications, announced today that the company's President & CEO, Gary Ritacco, presented his views on the state of the telecommunications industry during Technology Assurance Group's annual convention. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$350 million in products and services, of which eComm is a premier member, held their 2007 TAG National Convention in San Diego in March.

The theme for the convention was "Communicating through Convergence". Telecom professionals from both the United States and Canada listened to Mr. Ritacco's views on the convergence of voice and data and its impact on the way businesses communicate. Mr. Ritacco proactively participated in a number of roundtable discussions covering such topics as increasing customer profitability, utilizing customer relationship management systems, and understanding personality profiles to manage more effectively.

"Mr. Ritacco is very well respected in our industry and it was a privilege to have him address our group of distinguished professionals," said Dale Johnson, president of Technology Assurance Group. "All of

our member companies, strategic business partners, and industry analysts greatly benefited from Mr. Ritacco's valuable insight."

"The TAG convention gave us a fantastic opportunity to help our colleagues gain a clearer understanding of the direction of the industry as well as the topic of convergence," said Gary Ritacco, President & CEO of eComm. "The event also enables us to learn better practices from companies in other geographical locations that we can implement in our business to help our customers improve their profitability as well as give them a competitive advantage."

ABOUT ECOMM

eComm is a single point of contact, full-service provider of converged voice and data business communications systems for business and critical care communications for hospitals and nursing care facilities; related networking applications; presence management, collaboration and messaging applications. The Company's diverse suite of products and services includes unified communications; voice processing and unified messaging software; audio, video and Web conferencing applications; workgroup and call center management solutions; Internet protocol (IP) telephony software; Computer Telephony Integration (CTI) applications and other communication services.

eComm also provides managed services, such as local and long distance calling services, networking;

maintenance, leasing and support services for its products. It has a fully staffed customer care call center to provide instant access to its large lists of customers. eComm's customers include business enterprises, government agencies and non-profit organizations. Ecomm offers a comprehensive service partnership with its customers by providing excellent service 24 hours a day, 7 days a week through two strategically located sales and service facilities in Lancaster and Philadelphia/Malvern.
